Subject: Letter RE: Lake Cleveland Transfers

Attachments: Lake Cleveland Transfer Letters.pdf

Norm,

I was not sure of your current mailing address, but stumbled into this e-mail address. Attached are a couple of letters that I mailed out today relating to a couple of old protested water right transfer applications involving Lake Cleveland rights in Basin 45. One of the applications was filed by George & Gwen Montgomery (your clients) in 1995 and the other application was filed by AW & SJ Anderson in 1995. The main item of contention relating to the protests was ownership of the rights. During a prehearing conference in 1997, it was agreed upon to let the SRBA decide the ownership issue(s). The Lake Cleveland rights were decreed in the SRBA in 2007 and it appears that the decrees addressed the items in the two transfer applications making the applications unnecessary. The letters are an attempt to possibly get the applications withdrawn and the matter closed.

Let me know if you have any questions,

Corey Skinner
