**Subject:** PacifiCorp's application to the Water Supply Bank- water right #13-00962

Cynthia- As you are aware, PacifiCorp has submitted an application to lease the above referenced water right to the Water Supply Bank. This water right is a non-consumptive right for power generation at our Cove Hydro Plant near Grace, Idaho.

To date there are still several questions surrounding the fate of the plant, although PacifiCorp believes that decommissioning will still occur in the not so distant future. Given this, PacifiCorp requests that the application submitted be placed on hold until an amended Bear River Project license is issued by FERC authorizing the decommissioning of the Cove facilities.

Thanks to you and Bill Graham for your help with all of our questions. You have both been very helpful and I express my appreciation for your patience! If you have any questions, please contact me either via e-mail or at the phone numbers shown below.
