Re: Permit Proof request for permits 37-8813 & 37-8814

Dear Nicholas:

The lapse of almost 20 years on these permits has made the proof of livestock quite a challenge. However, Mr. Fitzgerald was able to find some additional documentation. We are submitting some dairy livestock inventory sheets prepared by Leforgee, Rogers & Evans, an accounting firm prepared on 3-31-1994, within just a few months of the permit proof dates. We feel that this additional proof should be more than sufficient to show the beneficial use on these permits. In 1993 there were two enterprises operating at this dairy facility; North Valley Milking & 4 Brothers Dairy. The following tables are a compilation of the two inventory sheets.

Heifer/Steer Raised totals 1,561. (37-8813)
