Re: Bashaw water rights transfer – Picabo Ranch
Project No. 010-01-1992

Dear Jim:

Per your request, I have prepared and am enclosing the following documents:

1. Map showing 1991 irrigated area boundary taken from the FSA slide
2. Map showing 1995 irrigated area boundary taken from the FSA slide
3. Map showing the physical outline of the proposed permissible place of use, which corresponds to the area which is reasonably irrigable (within the property boundaries) based on topography, aerial photos, and field inspections.

When you enter the PPU area into the GIS system, you will probably calculate slightly different areas than I originally gave you since the physical area outlined on the enclosed map is more precise than the acreage estimates I originally made.

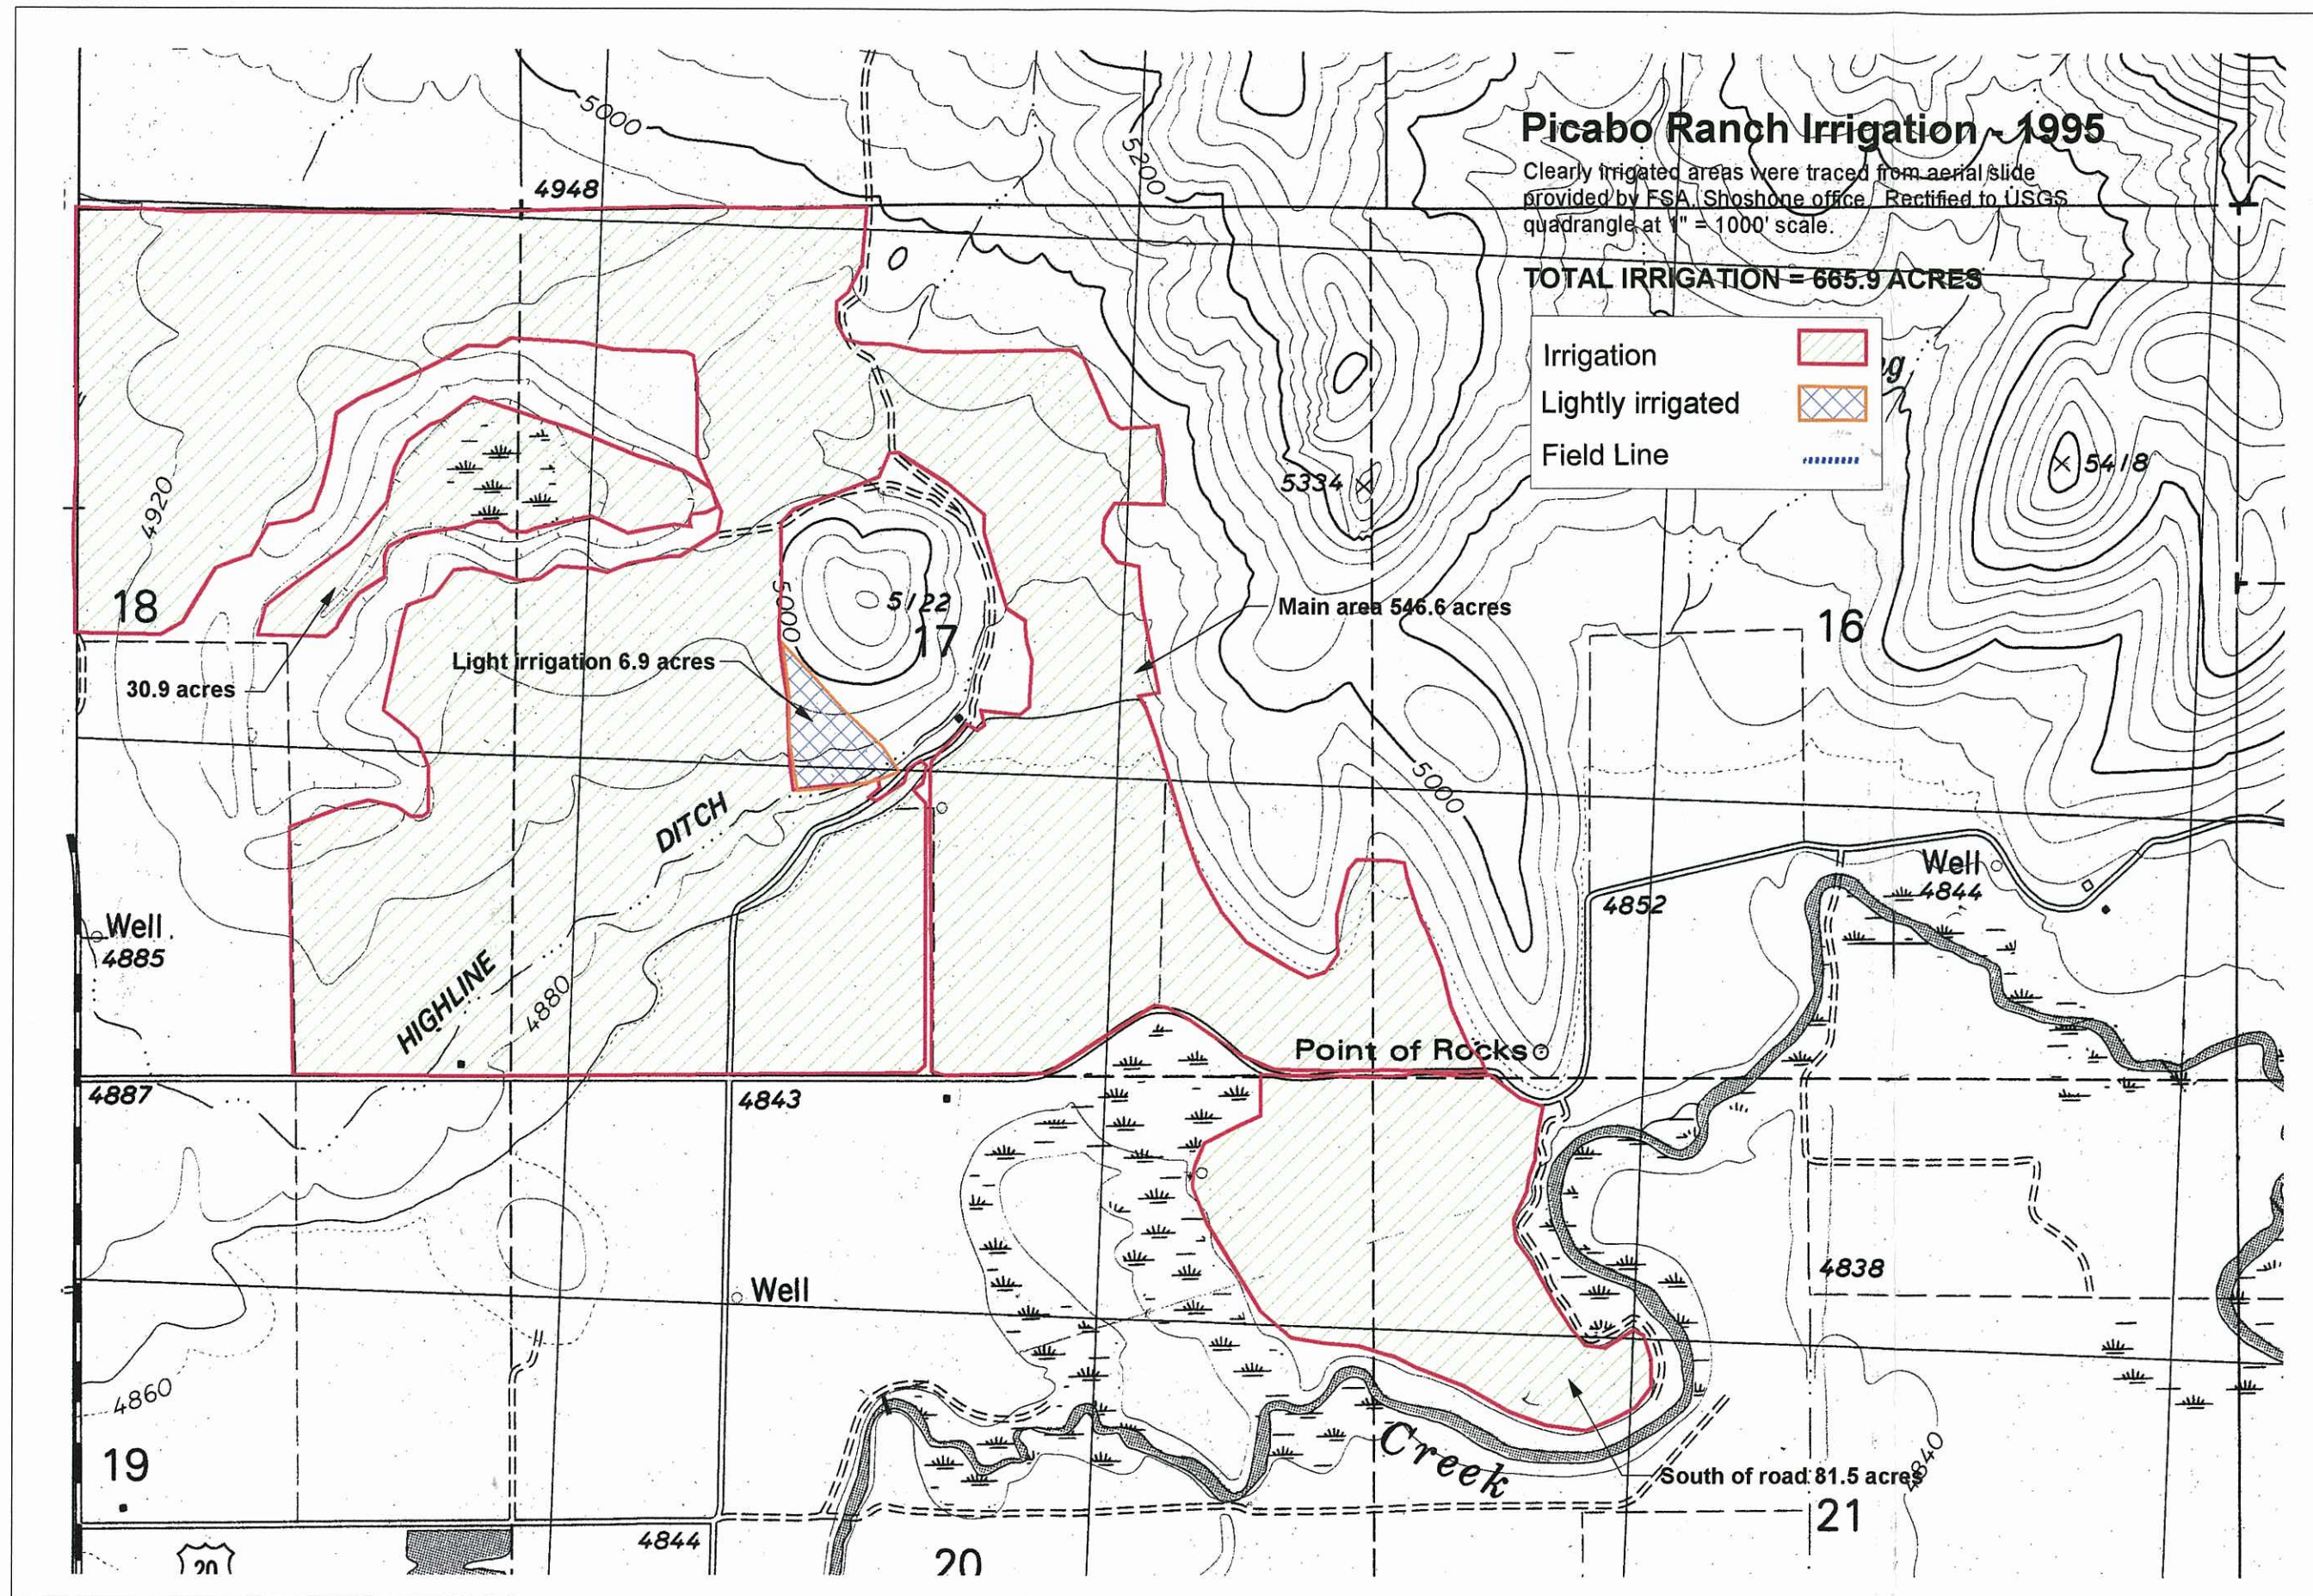

Please do not hesitate to call if you have any questions. I would appreciate you notifying me when these transfers go to advertisement.

Sincerely,

Charles G. Brockway, P.E.
