Re: Application for Permit No. 65-23348 and Transfer Application No. 75730

Dear Applicant:

This office received your Application for Permit seeking a water right and Application for Transfer proposing to change a water right(s). Upon review of your permit application, there are a few areas of the application that need correction or completion. I have enclosed a copy of the original application with the areas that need corrected highlighted in yellow. I address in further detail specific areas for correction or completion below. I have drafted an amended application for your signature that addresses the corrections based on information submitted with the original application and transfer application. Please review the amended application, make any necessary changes (date and initial any such changes), sign it on the second page and submit it to the Department for further processing.

The areas of your permit application that need correction or completion are as follows:

- The applicant name (item no. 1). The application is in the name of Ann Finley. The Warranty Deed submitted for the transfer application indicates the proposed place of use (P/U) and point of diversion (P/D) property is in the name of Patricia Ann Finely. Water rights are to be recorded in the name of the property owner as it appears on the deed. The amended application has been drafted with the name as it appears on the deed. The water rights proposed for transfer can be recorded in the name as it appears on the deed, per Department policy, without an amendment to the transfer application.
- The applicant mailing address (item no. 1). The mailing address is incomplete as it appears on the original application. The amended application has been drafted based on the address as it appears on the warranty deed. Please correct this portion of the amended application if it is incorrect.
- The quantity proposed for diversion (item no. 4 & 5). Department standards allow for up to 0.03 cfs/ac for irrigation of less than 5 acres. The permit application proposes irrigation of 2 acres within the 10 acre permissible P/U (PP/U) proposed. This permit can only be approved for a total quantity of 0.06 cfs for this purpose. The amended application has been drafted accordingly.
- The proposed period use (item no. 4). The standard irrigation season for the proposed place of use is March 1 thru November 15 as indicated on the amended application.

Finley

Page 2 of 2

The permit application proposes the use of Squaw Creek water for a consumptive use. Squaw Creek is within Water District 65A and is a tributary to the Payette River Basin. New uses of tributary sources in the Payette River Basin must comply with the Payette River Water District mitigation requirements. All new uses are conditioned as follows:

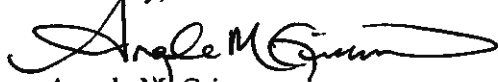

The right holder shall contact the watermaster by June 15 each year for authorization to continue diverting and using water. The right holder shall not divert water after June 15 each year unless the watermaster authorizes continued diversion and use of water under this water right. When the watermaster informs the right holder that water is not available to fill this right, the right holder shall cease diversion, shall rent water from the Payette River Rental Pool, or shall otherwise mitigate for the depletion of water caused by this water use. The department may amend the contact date listed in this administrative provision to more closely coincide with the date when water is not available to fill this water right.

I wanted to make sure you are aware that your new permit application, if approved, will be limited accordingly. If you decide you do not wish to pursue the new permit application based on this limitation, please complete the enclosed Withdrawal of Application for Permit form. A refund of the filing fee maybe issued, if requested, for a permit application withdrawn prior to the advertising stage of processing.

Please sign and submit the amended permit application, with any necessary corrections, to allow for further processing of your applications. If amendments are necessary to the enclosed application, please note on the application the date you amended the application and initial or sign next to that date indicating you are the author of the amendments. If you decide you do not wish to pursue the new permit application, please complete and submit the withdrawal form. Please note on this form or in a cover letter with the withdrawal form if you wish to receive a refund of the processing fee submitted. Your response, or a request for more time to make your response, must be received within thirty (30) days from the date of this mailing. The permit application will be voided without a timely written reply.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Sincerely,

Angela M. Grimm
Water Resource Agent, Sr.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR PERMIT

To appropriate the public water of the State of Idaho

1. Name: PATRICIA ANN FINLEY
PO BOX 7785
BOISE ID 83707

2. Source: SQUAW CREEK Tributary to: PAYETTE RIVER

3. Location of Point of Diversion:

#1 SQUAW CREEK NW1/4NW1/4 Sec. 16, Twp 07N, Rge 01E, B.M.
GEM County

4. Water will be used for the following purposes:

<u>Purpose</u>	<u>From</u> <u>To</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/01 to 11/15	0.06 CFS	

5. Total quantity to be appropriated is: 0.06 CFS

6. Proposed diverting works:

POINT OF DIVERSION #1

- a. Type and size of devices used to divert water from the source: PUMP, PIPE
b. Height of storage dam N/A feet;
Active reservoir capacity N/A acre-feet;
Total reservoir capacity N/A acre-feet;
c. Proposed well diameter is N/A inches;
Proposed depth of well is N/A feet.
d. Is ground water with a temperature of greater than 85F being sought?
e. If well is already drilled, when? N/A;
Drilling Firm N/A;
Drilling Permit No. N/A.

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 5 year(s).

8. Description of proposed uses (if irrigation only, go to item 9): N/A

(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 0.06 ~~0.10~~ and/or (b) _____
cubic feet per second acre feet per annum
6. Proposed diverting works:
 - a. Describe type and size of devices used to divert water from the source pump, pipe
 - b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet;
total reservoir capacity _____ acre-feet
 - c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet
 - d. Is ground water with a temperature of greater than 85°F being sought? _____
 - e. If well is already drilled, when? _____; Drilling firm _____;
Well was drilled for (well owner) _____; Drilling Permit No. _____
7. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year)
8. Description of proposed uses (if irrigation only, go to item 9):
 - a. Hydropower; show total feet of head and proposed capacity in kW. _____
 - b. Stockwatering; list number and kind of livestock. _____
 - c. Municipal; show name of municipality. _____
 - d. Domestic; show number of households. _____
 - e. Other; describe fully. _____

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: *D* for *Domestic*) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
7N	1E	9											8						8
7N	1E	16						2											2

Total number of acres to be irrigated 10

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? 65-22783, 65-23278 (2-acre portion)

- Who owns the property at the point of diversion? Ann Finley
- Who owns the land to be irrigated or place of use? Ann Finley
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____

12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. Eight of the ten acres described above are covered with 0.10 cfs and 36 afa on the overlapping rights 65-22783 and 65-23278 when combined. This application proposes an additional 2 acres irrigation and full appropriation of Squaw Creek water for all 10 acres. A permissible place of use encompassing the ten acres listed above and the same point of diversion listed in Item 3 of this application have been proposed for the overlapping rights on an accompanying transfer application.

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½"x11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. (A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.)

BE IT KNOWN that the undersigned hereby makes this application for permit to appropriate the public waters of the State of Idaho as herein set forth.
