Subject: Bashaw Transfers #68497 68498

Pam-

As you know, Cherie Padilla has been working on the amended Bashaw transfer application #'s 68497 and 68498. She wrote me in an October 30th 2009 letter (attached) requesting additional information in order to continue processing both transfers. She had also told me that you may continue processing the applications in her absence with receipt of the requested information. This email serves to answer most of the questions posed in her October 30th 2009 letter.

With regards to 2nd and 3rd paragraphs in the letter dealing with the ownership of 11.6 acres in the SWNW Sec.21 T.1S R.20E., I am still working on sorting out this ownership and will let you know if the area in that QQ needs to be amended as soon as I can verify the ownership with the applicant.

With regards to the 4th paragraph in the letter, the map correctly identified the portion of the proposed PPU in the E1/2SE1/4 of Section 18, T.1S R.20E, NOT the E1/2NW1/4 of the same section as is stated on part 1A: place of use. Part 1A should be changed to match the map enclosed with the amended application, I can provide an amended Part 1A should you need request/require it. Please let me know if you need an amended Part 1A.

With regards to the 5th paragraph, we understand that IDWR's system doesn't allow more than 40.0 acres to be input into a QQ in the system for place of use. We agree to allow IDWR to enter 40.0 acres into those QQ's in the place of use that had 40.0 or more acres on the amended transfer application.

Thanks for your time Pam and I will verify ownership as soon as possible.
