01S	20E	21						24.2	7.5										31.7

Total acres 603.8

The acres within the PPU will be fully covered by surface water and groundwater. A total of 672 acres of irrigation on the property can be justified based on historical beneficial use. The groundwater rights authorize 672 acres, but no acres are listed on any of the surface rights. A reduction in irrigation to 603.8 acres will result in 68.2 acres available to be moved off the property ($672.0 - 603.8 = 68.2$).
