Subject: Russell Subdivision Applications for Transfer (2)

Dear Steve,

Enclosed on behalf Russell Subdivision lot owners are two Applications for Transfer. Two separate water systems are proposed for domestic use within the subdivision; one for six lots in the north half of the subdivision and one for six lots in the south half of the subdivision. The existing wells will continue to be used for diversion of domestic ground water appurtenant to the north half. A new well is proposed for diversion of domestic ground water appurtenant to the south half.

✓
OK
-JL
The reason the proposals are on "old" transfer forms is because the applicants have been gathering the required signatures and attachments since March, 2008, when SPF sent them the prepared transfer applications. Because of the efforts that have been made by the applicants and the numerous signatures involved, we hope the department will accept the enclosed applications prepared on the "older" forms.

Check No. 1368 for \$500 is enclosed for the filing fees; \$250 for 0.28 cfs and \$250 for 0.24 cfs.

Please let me know if there are any questions. Thanks Steve.

Sincerely,

A handwritten signature in cursive script that reads "Lori Graves".
