REQUEST FOR EXTENSION OF TIME

TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF
OF BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right and file proof of beneficial use of water. There is a **FILING FEE** of \$50.00 to be included with this form when filed with IDWR.

Permit No. 63-32049 Date Proof is Due: March 1, 2010

Name(s) of Permit Holder: Boise Valley Feeders, LLC

Address: 2201 Ridgeway Rd City Parma State ID Zip 83660

Telephone No. 208-722-8090 Email: jjohnson@johnsonresearchllcc.com

Describe what work has been completed toward the development of this water right: (This must be filled out! If no work has been completed, show "none".)

Permitted industrial use has been developed with the installation of automated sprinklers in the feedlot pens enabling dust control.
Total cost for the industrial sprinkler system was over \$50,000.

Cost estimates and preliminary engineering work have been completed towards the development of permitted irrigation use. A new pivot system will cost approximately \$90,000 and a new well will add another \$100,000. In an effort to save costs, we plan to make changes to our current irrigation system and practices this season to determine if the proposed acres can be developed using our existing irrigation system, which would save from having to drill a new well.

Costing >\$50,000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Current economic conditions have forced us to spread total project development and costs out over a longer period of time than originally anticipated.

Permit holder(s) request an extension to March 1, 2015.
