DEPT. OF WATER RESOURCES
SOUTHERN REGION

RE: Amended Water Right Transfer Application # 76101– Salmon Falls Land & Livestock Co Inc.

Dear Benny,

Enclosed is an amended water right transfer application for surface water rights 2-7249 and 2-7462 in the name of Salmon Falls Land & Livestock Co Inc. The purpose of the enclosed amended water right transfer is to reduce the permissible place of use area by 0.2 acres to 2668.0 acres as requested by yourself and Corey Skinner of IDWR, Southern Region Office. The attached water right transfer application is meant to supersede the application submitted on August 31st, 2009. The total number of irrigated acres as recommended by IDWR is not proposed to be changed pursuant to transfer approval. It is my understanding processing of transfer #76101 will continue with receipt of this application.

Also enclosed is a signed limited power of attorney document enabling our office to amend water right transfer #76101. Please copy our office on all correspondence regarding this water right transfer application. Thank you for your assistance on this matter and if you have any questions or comments, please don't hesitate to give me a call.
