RE: Amended Water Right Transfer Application – Salmon Falls Land & Livestock Co Inc.

Dear Benny,

Enclosed is an amended water right transfer application for surface water rights 2-7249 and 2-7462 in the name of Salmon Falls Land & Livestock Co Inc. The purpose of the enclosed amended water right transfer is to create a 2668.2 acre permissible place of use so that Salmon Falls Land & Livestock Co Inc may irrigate efficiently on their property, and to resolve pending SRBA objections to Salmon Falls Land & Livestock Co Inc's water rights by the U.S. Department of the Interior (BLM). Currently, all irrigation appurtenances within the proposed PPU are tied together by buried mainlines. Portions of Salmon Falls Land & Livestock Co Inc's land that will not be irrigated have been left out of the amended water right transfer per guidance from Mr. Gary Spackman of IDWR (see attached 8/10/09 letter). The total number of irrigated acres as recommended by IDWR is not proposed to be changed pursuant to transfer approval.

Please copy our office on all correspondence regarding this water right transfer application. Thank you for your assistance on this matter and if you have any questions or comments, please don't hesitate to give me a call.

Regards,

Zach Latham, M.S., Hydrologist
