Shelley –

Thanks for the clarification. That was our only comment. Let's move forward with getting the permit signed. Thanks again.

Terry

Terry,

In my experience, purposely issuing a permit in the trust water area without the 20-year trust water review, even when the use is mitigated, would be unprecedented. If there were a 20-year review, the mitigation plan would surely be a factor in the re-evaluation of the public interest.

For examples, see 36-16156, 37-22431, 37-22380, and 34-14101.

Hi Shelley –

6X is excited to see this permit ready to issue. In reviewing it, they questioned the need for condition No. 10. Since this permit is already mitigated by a senior decreed water right, does it need to be subject to the "20-year re-opener"?

Terry,

As I promised this morning, I've attached a draft permit for 6 X Ranch, Application 34-13763. Please let me know by Feb. 17, 2010, if you have any comments or suggestions. If I haven't heard from you by then, IDWR will issue the permit.
