Re: Water Rights 63-9718, 63-9751; Transfer 69237

Dear Ms. Edl

When our Mr. Van Dam met with your Mr. Barrie on or about 11/15/09 he received a copy of a document entitled "**Transfer No. 69237**". On 11/21/09 Ms. Shelly W. Keen from your office sent us a **Transfer Approval Notice** letter, concerning Transfer No. 69237. It would have been premature and overwhelming to us to review the Transfer before assimilating some of the basic facts and concepts revealed in the Permit Applications.

However, after having received the preliminary documentation, i.e., the Permit Applications 63-9718 and 63-9751, etc., it is time for us to request additional documentation from you to assist us in our pursuit of the facts in this matter. Therefore, it is requested that you now please send to us by U.S. Mail, a copy of the application for Transfer No. 69237 to Change the Point of Diversion for Water Right (Permit) No. 63-9751 and copies of any helpful supporting documents in conjunction with the 69237 Transfer Application.

This will allow us the opportunity to review that data, as we have done on the previous two documents we have received, and to submit additional questions to you. In this way you will be able to supply the important information necessary for us to continue our analysis of the facts and enable us to make the determination of how we can best assist you to solve your administrative problems. Thank you for your kind consideration and concern.

Yours Very Sincerely,

Donald C. Anton
(ye)
