To Whom It May Concern:

This letter serves as a withdrawal of my protest on matter #74649. I'm mistakenly assumed that if I protested the matter, IDWR would force the blockage removed from the channel allowing the water to be delivered to the rightful owner.

As it seems that a water right can harmed and an individual can obstruct the delivery of such a right through the legal delivery system and IDWR will take no action.

I have no problem with Mike and Madhavi getting their water through the Hanrahan Ditch.

Trilby McAfee
