If the right is not recorded in the name of the seller/lessor, attach a copy of a change of ownership form as required by Section 42-248 or 42-1409(6), Idaho Code, together with required documentation.

Water right was acquired through purchase of land. Attached is a copy of the IDWR Water Right Proof Report, which shows ownership.

Attach watermaster records, pumping power bills, or other evidence to demonstrate that the right has not been lost through abandonment or forfeiture. (This information is not required if a partial decree has been issued on the right within the last 5 years).

This right has not been used in the past five years, but a 5-year extension of time to avoid forfeiture was filed. The extension was approved until 9/1/2006. The water right was in the Water Supply Bank for the 2006 and 2007 irrigation season. An application was filed to place the right into the Bank for the 2008 irrigation season, but IDWR did not have time to process the application before the end of the season. The intent was to protect the right from forfeiture by placing it in the bank.

- 05/01 through 09/30

- 71-64A will also be placed in the Water bank. It has the same purpose and place of use as 71-69.
