Proof of Beneficial Use; 65-22911

Notice of Change in
Water Right Ownership; 65-7007, 65-8209, 65-8260, 65-8296, 65-8356,
65-8357, 65-10293

Dear Emalee,

Attached are Assignments of Permits, Proof of Beneficial Use and Notice for Change in Water Right Ownership for the water rights listed above. Although the water rights are currently listed in the name of M Resorts LTD or Whitetail, A Club for All Seasons LLC, the property has been sold to Sabala Whitetail LLC.

As advised by John Homan with IDWR, the enclosed information described below will enable the Department to change the current owner listed for the above water rights to Sabala Whitetail LLC.

Assignments of Permits. Completed, unsigned forms and \$200 processing fee. To allow the assignments to be processed without signature from the owner of record, a warranty deed, asset purchase agreement and copy of a request letter to the owner of record for assignment of the permits have been included. Response was not received from the owner of record as verified by the attached Affidavit of Service.

Proof of Beneficial Use. Completed, signed form and \$100 processing fee. Although a SPF Water Engineering will be conducting the licensing exam for this permit, a processing fee was included, as required by IDWR, since the licensing exam was not submitted with the proof of beneficial use. A refund of this fee will be requested at the time the completed exam is submitted.

Notice of Change in Water Right Ownership. Completed, signed form and \$175 processing fee. The enclosed ownership documentation and asset purchase agreement applies to both the permit assignments and ownership change notice.

Check No. 5235 is attached to cover the processing fees described above. Please let me know if there are any questions. Thanks Emalee.

Sincerely,

Lori Graves
Water Rights Specialist
