RE: CHANGE OF OWNERSHIP FOR WATER RIGHT 67-10055, 67-7763, 65-4561

The department received a Change of Ownership form for the above water right in Sept, 2006. In our recent review, we have found that the change of ownership was not completed.

We have found a few discrepancies that need to be corrected before we can process the Change of Ownership. First, 67-7763 is a Permit and needs an Assignment of Permit Form submitted before the ownership can be changed. Those forms can be found on our web site.

Water right 65-4561 is not part of your property according to the deed you submitted so no change in ownership of the water right will occur unless you can submit deeds showing you own the property.

Lastly, water right 67-10055 has 11N 1W S5 NWSW included as part of the water right but that quarter/quarter is not covered by the deeds submitted. If you sold that property, we will need to split the water right. The fee to split a water right is \$100. If you never owned that property, then a transfer might be needed to correct the water right. The fee for a transfer is also \$100.00.

I have enclosed a copy of the Change of Ownership form and a copy of your water right.

Because the Department cannot process the ownership change without proper documentation, we will hold any action on your notice pending receipt of the necessary information. If we do not receive the necessary information within 30

days we will return your notice and all attachments and your notice will not be processed.

If you have any questions, please call me at 208-287-4967.

Sincerely,

Sandy Egbert
GIS Specialist
