RE: CHANGE OF OWNERSHIP FOR WATER RIGHT 65-10840A

The department received a Change of Ownership form for the above water right in Dec., 2006. In our recent review, we have found that the change of ownership was not completed because we are missing a document needed to complete the change of ownership and some other questions have surfaced.

We received a Deed of Trust with the Change of Ownership form but that form is not acceptable as proof of ownership. We must have a document such as a Warranty Deed to establish ownership.

The documentation we have seems to indicate the water right will need to be split since it only covers part of your property. From the review done so far, you should get 1 acre of irrigation or .02 cfs but those figures could change if the water rights are addressed in the deed.

The fee to split a water right is \$100.00 and since you have already paid \$25.00 we will need an additional \$75.00 before we can process this change of ownership.

Because the Department cannot process the ownership change without proper documentation and fees, we will hold any action on your notice pending receipt of the necessary information. If we do not receive the necessary information within 30 days we will return your notice and all attachments and your notice will not be processed.

I have enclosed a copy of the first page of the Change of Ownership form and a copy of the water right.

If you have any questions, please call me at 208-287-4967.

Sincerely,

Sandy Egbert  
GIS Specialist
