Re: Water Level Measurement Results in your wells

Dear Norm,

Thank you for allowing the Department the opportunity to measure the static water level in your wells. On December 30, 2008, the depth to water in your domestic well at the house was 68.02 feet below the top of the casing.

As we collect additional information, I will be sending you updates and summaries of the data related to this project. For additional information regarding this project, please visit <http://www.idwr.idaho.gov/hydrologic/projects/nac/>. If you have any questions or concerns, feel free to contact me at (208) 287-4855. Again, the Department thanks you for your cooperation in this project.

Sincerely,

A handwritten signature in black ink, appearing to read 'Dennis Owsley'.

Dennis Owsley, P.G.
