Ernie -

Department of Water Resources
Eastern Region

Here is the ~~Mitigation~~ Plan
for our Pond Permit 27-7582.

Louie wrote 2 plans - one using
the map we did with you - and
then he wrote another plan - because
(he's not sure he's figured it right)
he feels we don't have to dry
up quite that much land, as
this was irrigated land before the
pond was made ^{and the way he figured it.} See what you
think, and then please let us
know what is the next step.

We appreciate very much
your help.
