

Garden Creek Irrigation Company ("Old Ditch Company")

1/30 /10

Dear Garden Creek Irrigation Company Shareholders,

By now you have received information concerning activities that have caused friction among shareholders and officers within the water district. This letter is to re-emphasize the importance of the scheduled special meeting February 15, 2010 at 7:00 P.M. at the Arimo city hall as stated in the notice mailed to you January 29, 2010.

Thank you for the positive feedback which we have been receiving. We hope all shareholders will join with us and would appreciate your positive input for ways to upgrade the present irrigation system to better serve all of us. It is important we select new officers that will provide for future leadership in maintaining the rights and protection of each person individually and the company collectively. Hopefully the counter-productive atmosphere that has plagued us recently can be replaced with one of working together. All shareholders will have opportunity to express themselves in turn.

As a reminder, some purposes of the meeting include:

1. To elect officers.
2. To discuss enlargement of the central lateral.
3. To discuss assessments.

It is our hope as directors that we can accomplish necessary improvements to the inadequate and neglected system in an atmosphere of cooperation. Shareholders comments indicate that we agree that the needs of the Old Ditch Company and the Garden Creek Water District can be met effectively without legal, or Idaho Department of Water Resources intervention. We look forward to meeting with you.

Sincerely,

Klain Christensen, director Garden Creek Irrigation Company

Jack Hatley, director Garden Creek Irrigation Company

cc: Department of Idaho Water Resources
