PROOF DEFICIENCY LETTER

RE: PERMIT NO. 96-9431

Dear Permit Holder(s):

During my review of your statement of completion ("proof") for this water right, I noticed that the license examination fee was not paid at the time of filing proof. The license examination fee is based on the maximum rate of diversion that was developed, and is for the department to conduct a beneficial use field examination of the water system to verify its use.

On July 31, 2009, Mr. Richard Tucker submitted a proof statement for permit number 95-9488, only it contained the information matching permit number 96-9431. He then submitted a proof statement where the source of water and uses more closely matched the permit for which proof of beneficial use was due. On that same date a license examination fee of \$50.00 was paid. However, that payment was applied to permit No. 95-9488. Enclosed is a record of that receipt.

Your proof statement for permit number 96-9431 cannot be accepted without the license examination fee. The permit was issued with a maximum diversion rate of 0.12 cfs, from surface water. Based on your maximum diversion rate the exam fee due is \$50.00. Upon receipt of the license examination fee I will acknowledge its receipt.

I have enclosed the instructions for filing proof and the license examination fee schedule. I will hold this matter for your response for fifteen (15) days from the date of this letter.

If you have any questions, please contact me at (208) 287-4945.

Sincerely,

Darla Block
Technical Records Specialist
