RE: Change of Ownership 35-7153

On April 17, 2008 our department received and ownership change from Amalgamated Sugar Co for water right 35-7153.

During our review our department found another ownership change for the same water right into MPH Farms that was received May 9, 2008 and had already been completed giving MPH Farms water right 35-7153 in its entirety. With review of the legal description it was found that the ownership change was completed in error and a split should have been done.

Awaiting adjudication review this process was held up see remarks on proof report. On November 20, 2009 these ownership changes were complete giving each applicant their proportionate share of water right 35-7153 MPH Farms received water right number 35-13989. Amalgamated Sugar Co received 35-13990 and MPH Farms was removed as an owner for that water right no 35-13990 where they never should have been listed.
