Re: Application for Extension of Time to Avoid Forfeiture of Water Right

Dear Applicant:

You filed an extension application in February 2001. Apparently you were trying to address concerns for Monroe Creek water right nos. 67-636 and 67-637.

The Idaho Department of Water Resources (IDWR) sent you a letter in May 2001 regarding possible withdrawal or voiding of the application. Several telephone calls and at least one office visit followed through July 2001. However, no additional contact has occurred since then.

The application is therefore void and returned to you in this mailing. A refund is not warranted as noted by the May 2001 letter.

Also enclosed is a current list of you water rights for the area in question. All those rights have been decreed in the Snake River Basin Adjudication (SRBA), meaning they are valid water rights. Rights remain valid provided they are used at least once every five years.

Right 67-636 was split: 67-14721 is your portion, and the other portion is for Woodcock. Right 67-637 was disallowed in the SRBA since it was included in 67-636.

More IDWR information is available on the Internet at www.idwr.idaho.gov. Please contact me at 334-2190 if you have any questions.

Sincerely,

Steve Lester
Water Rights Supervisor
