Re: Amended application for Transfer of Water Rights – Christie A. Haugh.

Dear Allen,

Attached is an amended application for water rights transfer # 75102 in the name of Chris A. Haugh which reduces the place of use acres to exclude federal lands. Recently, transfer application 75102 was advertised and protested by the BLM because a portion of the proposed place of use (T.01N R.18E, SEC.2 SWSE) was located on federal lands. The portion of the proposed place of use as listed in the application that occurs on federal lands is an error and the attached application is meant to supersede the application with the incorrect place of use description. The amended application lists a place of use that does not include any federal public lands. It is our hope that the objection by BLM will be withdrawn and processing may continue following submission of this amended application.

Also enclosed are a power of attorney document and the protest filed by the United States Department of the Interior on behalf of the Bureau of Land Management dated January 7th 2010. Please copy our office on all correspondence regarding this water right transfer application and don't hesitate to give me a call with questions or comments. Thanks for your time and have a great day.

CHARLES E.
