Re: Application For Permit to Appropriate the Public Waters of the State of Idaho

Dear Mr. Cherry:

The Idaho Department of Water Resources is in receipt of two applications for permit to divert groundwater for municipal purposes. I am assuming the reason for the two permits is because the district is planning to utilize two wells. The two wells or two points of diversion can be included on one application.

From the information submitted to the department, I have developed an electronic version of the district's application, incorporating the two points of diversion and correcting discrepancies as to the place of use boundary. Please review the application, paying special attention to the described boundary and if it meets with your approval, sign and return the application within the next 30 days so as not to delay processing.

When the application is resubmitted, also include the district's Public Water Supply number that is registered with the Department of Environmental Quality. This is needed for all municipal applications.

The two wells that are proposed to be used were originally constructed as single domestics. That means in 1998 the driller purchased two well permits for \$75.00 each. If wells are used for any purpose other than domestic, such as municipal the drilling fee would have been \$200.00 for each well. Therefore, in order to utilize these two wells, the drilling fee for both needs to be upgraded. Please submit a check made out to IDWR in the amount of \$250.00, which is a balance of \$125.00 for each well.

If you have any questions, feel free to contact me at this office.

Sincerely,

Dear Mr. Jensen:

Enclosed is an electron version of Sagle Valley Water & Sewer District's application for a new water right. This application incorporates two points of diversion into one application. Please review the application and if it meets with your approval, have the applicant sign and return the document within the next 30 days. Once the department receives the new application, a request will be made to refund the application fee for one of the previously submitted applications.

If you have any questions, feel free to contact me at this office.

RE: Application for Permit No 96-9429

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the Bonner County Daily Bee on June 4 and 11, 2009. Submittal of protests to this application will be allowed for a period ending ten days after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in Boise for final processing. The State Office will notify you of any action taken on the application and will send you a copy of the permit if approved. A typical processing time for an unprotested application is about eight to twelve weeks.

Please feel free to contact this office if you have any questions.

Sincerely,

Keith E. Franklin
Senior Water Resource Agent
