

Memorandum

Date: January 20, 2010

To: Permit 25-13979

From: Ernest Carlsen, Program Manager *EMC*

RE: Extension on Proof Due Date to **10-01-2010**

Permit 25-13979 was approved 08-22-2003 with a proof date of 09-01-2008. Because the development was not completed within the designated time period on 09-08-2008 the permit holder submitted both an extension of time requesting until 09-01-2009 to file proof and an application for amendment of the permit to drill a second well. The extension of time was approved on 09-10-2008 but because the amendment was not approved until 09-28-2009 a condition on the amendment advanced the proof due date to **10-01-2010**.
