Jeanie-

Thanks for the information. I believe Duane Grant (Grant 4-D Farms) would be able to amend the water right transfer application since he and Steve Whitesides (Mountain View Land LLP) are "collectively doing business as WG Farms LLC", as is outlined in the first paragraph of the amendment of lease document. The amendment of lease outlines the intent of both parties (Grant and Whitesides) to create a new PPU, move 30.9 acres of 36-2315B to the IYR campus, etc. So, Grant and Whitesides have agreed together to make the proposed transfer as is proposed in the amended application.

If we need a signed power of attorney from Steve Whitesides to go to advertising, I will get it, although I am hoping that Duane Grant's signature will suffice for amended application. Please let me know your thoughts and we can go from there, thanks again for all of your help.

Zach,

I've pretty much worked through the amended transfer and was trying to organize and put it all together as I made my memo and I did notice that the application is under WG Farms and Wayne had signed your POA, but according to the Secretary of State's website, only Steve Whitesides is authorized. I saw no mention of Wayne Grant being involved. You might look into that? Jeanie
