Attachments: Recommendation of WaterMaster; TransferApplication-74911.doc; DraftTransferApproval.doc

Watermaster (Kevin):

This is a transfer for Rinker (Renegade/McGlochlin) to create a permissible place of use and also correct the location of one well (recommended wrong). It was filed as a result of our 2008 compliance review. Please give me a call if you have any questions.

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered during regional review. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Please contact this office if you have any questions regarding the application.
