Re: Renegade/McGlochlin Notice of Violation Water Right Nos 37-464, 37-2444, 37-2188, 37-21018, 37-7551

Dear Allen:

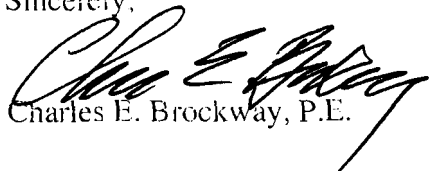

To comply with the agreement as outlined in your letter of May 29, 2008, which we received on June 2, 2008, Brockway Engineering has evaluated the non-irrigated areas within the authorized places of use for the above water rights and developed a new PPU which includes all of the authorized acres and some additional irrigable acres on the ranch. I believe this comports with the agreement. The PPU consists of 608 acres with an authorized irrigated area of 273.6 acres.

I am submitting the transfer to effect the new PPU but have been unable to secure all the deeds necessary to show ownership of all the property. I believe I can have those documents by July 11, 2008 but I wanted to submit the transfer at this time.

I am submitting Brockway Engineering check # 7991 for \$450 for the transfer fee. This fee is calculated on the total allowed diversion limits of 5.47 cfs.

Thank you for your assistance and patience in this matter.

Sincerely,

Charles E. Brockway, P.E.
