Conditions of Approval:

- 1.26A Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
- 2.046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
- 3.073 Diversion and use of water with a temperature greater than 85 degrees Fahrenheit is not authorized under this right.
- 4.R62 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.0 acre-feet annually per acre at the field headgate for irrigation of the lands authorized.
- 5.01M After specific notification by the Department, the right holder shall install a totalizing flow meter to measure the amount of water diverted and shall annually report the amount of water diverted to the Department as directed.
- 6.121 The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
