*Subject: Amended Application for Transfer No. 73778
Canyon County Water Company and Richard Porter*

Dear Steve,

Enclosed on behalf of Canyon County Water Company, LTD (CCWC) and Richard Porter is an Amended Application for Transfer. The amendment includes all three CCWC diverted from the Boise River, including Water Right Nos. 63-163, 63-179B and 63-21761. This application seeks to add a point of diversion that is located approximately 3 miles below CCWC's primary point of diversion from the Boise River. This new point of diversion exists and is utilized under Mr. Porter's licensed right no. 63-12550. There is no change to CCWC's place of use; this change in point of diversion serves to simplify delivery to 23.5 acres owned by Richard Porter.

I believe this amendment addresses your previous concerns. Please contact me with any questions or requests for additional information.

Sincerely,

Scott N. King, P.E.
Senior Project Engineer

Re: Application for Transfer No. 73778 for Water Right No. 63-21761

Dear Scott:

The above referenced transfer application to add a point of diversion can be processed as soon as one item is addressed. The ditch company provides water under three rights to its service area. The rights are 63-163, 63-179B and 63-21761. A change in point of diversion to one right is therefore a change to all three rights. The only way an element of the rights can be changed is by including all the rights in a transfer application.

The Idaho Department of Water Resources (IDWR) recommends an amended application be filed to include all three rights. Enclosed are copies of the decrees recently issued for the rights. The copies can serve as Part 2 of an amended application since the IDWR database has not been updated yet to reflect the decrees.

Please use the current version of the transfer application available on the IDWR website (does not need to be notarized etc.). The current version should replace the one generated from your firm's computer system.

The original application was filled out perfectly. All you need to do is mimic the content of that one and add the other two rights when using the current application form. This office can process the amended application without delay once it is received.

Please let me know if you need more information. Thank you for your attention to these matters.

Sincerely,

Steve Lester
Water Rights Supervisor

Subject: Application for Transfer of Water Right No. 63-21761

Dear Steve,

Enclosed on behalf of Canyon County Water Company, LTD (CCWC) and Richard Porter is an Application for Transfer of Water Right No. 63-21761. This application seeks to add a point of diversion that is located approximately 3 miles below CCWC's primary point of diversion from the Boise River. This new point of diversion exists and is utilized under permit 63-12250. There is no change to CCWC's place of use; this change in point of diversion serves to simplify delivery to 23.5 acres owned by Richard Porter.

Enclosed are copies of CCWC Certificate Numbers 1693 and 1700 for 3½ and 20 shares respectively. Also enclosed is a check for \$250 for this application. Mr. Porter has requested that you please return the receipt to me for his files.

Please contact me with any questions or requests for additional information.

Sincerely,

Scott N. King, P.E.
