RE: Transfer 74778, Monty Funk
Request for additional information.

Hello Erick,

Several weeks ago we spoke by telephone of an unresolved matter involving Transfer 74778 filed in the name of Monty and Carolene Funk. This email is just a reminder there was a discrepancy between the Lessors on the Farm Lease agreement, and the owner(s) of the leased land according to the Power County taxlot data. Calvin Dyer and Pamela Dyer signed the Farm Lease while taxlot data listed Dyer Family Trust as owner of the 80 acres being leased. I mentioned during our discussion we could proceed with final action on the transfer application once we receive documentation to show that Calvin and/Pamela Dyer have signature authority for the Dyer Family Trust or that title of the land was conveyed to Calvin and Pamela Dyer from the Dyer Family Trust. Do you have an idea of when we could expect to receive the needed documentation?

You may recall we also discussed the concept of identifying the 232 acres designated as the principle acres to be irrigated within the 314 acre permissible place of use. It was my understanding the Funks wanted the property they owned to be the principle acres and when they install the pivot system which will irrigate the Dyer property the Funks will not this office so we can update the shape file for the ground to be irrigated by the water right.

Look forward to hearing from you.

Thanks

RE: Telecon w/ Eric Powell.

7 Oct 2009.

- Reminded him of ownership discrepancy; need to
verify the principle acres ~~shape file~~ to irrigated.
He will have someone in his office do the follow-up
and get back to me.

Ernie.
