Applicant Name: Box Canyon Dairy

Watermaster's Recommendation:

a) __X_ I do not oppose approval of this application

36-4117

b) _X_ I do not oppose approval of this application if it is conditioned as follows:

36-2535 – ADD BACK surface water condition *
36-2535 – modify pou to exclude approx 0.3 acres in SWSW and modify xfer shape **

c) ___ I oppose approval of this application(s) for the following reasons:

d) _X_ Additional comment:

* Field notes in WMIS clearly indicate supplemental use of the well, and the use of a canal relift booster which uses the same demand meter as the deep well. Additionally there are still 40 shares NSCC listed for this QQ.

** The irrigation west of the residence in SWSW S15 is irrigated from the domestic well under right no. 36-11070. It does not belong here and irrigation under the transfer in SWSW should be limited to that under the pivot.
