Subject: Well permit # 63-33139

John,

Thanks for your time this morning. Per our discussion and in accordance with your suggestion, I am submitting this written note to you to confirm our discussion regarding the timing for drilling the well on above stated permit. It turns out that given our construction schedule in conjunction with the weather, we will not be able to complete the project per the terms of the original permit but as we discussed, we intend to complete the project next year once the weather is more favorable. Thanks for your help
