DEPARTMENT OF
WATER RESOURCES

RE: "Permit No. – 65-22918 beneficial Use Status."

Dear Miss Block:

Attached, please find the IDWR – Statement of Completion form with our contact information with whom the Water Right should be registered under. Also, please find the original State of Idaho Department of Water Resources – Assignment of Permit that we just received from Gem County who the original water rights permit began with.

Originally, Gem County started this development which the Water Right was filed under Gem County. During the construction period, Gem County transferred the 2 - wells, water distribution system, operations, and ownership to City of Emmett along with the Water Rights for both wells.

Gem County gave this copy of the document to the City of Emmett the 1st of November 2009.

After speaking with Mr. Nick Vandyke from your office on Thursday, November 12, 2009, Mr. Vandyke advised me to proceed with the application along with the \$125.00 application fee so that the application could be filed so that proof of completion inspection takes place. I was also advised that we will need to complete a transfer of ownership after the inspection so that the application is completed and filed.

Please find the following items attached;

- State of Idaho Department of Water Resources – STATEMENT OF COMPLETION form.
- Check from City of Emmett for \$125.00 to I.D.W.R.

Place(s) of use: No POUs found for this right

Conditions of Approval:

1.	26A	Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
2.	046	Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
3.	126	Place of use is within Shadow Butte Industrial Park. The place of use is generally located within Sections 10, 14 & 15, Township 06N, Range 02W.
4.	106	Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality standards of the Department of Environmental Quality.
5.	102	The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
6.	01M	After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
7.	121	The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
