**RE: Water Right Permit 37-7807**

Dear David,

I visited the location of your new home last month, and upon seeing the present state of construction, opted not to do the field exam at this time. It will be necessary to document the completed lawn irrigation, which includes the sprinkler system, and the in house use.

Another field exam agent from this office will contact you at a later date to complete this exam. Something else that needs to be done for this water right is a change of ownership for this permit. This can be done two ways, if you know the whereabouts of Mr. James Reid, we can do an assignment of this permit. If that is not possible, we can do a change of ownership after the license is issued. I suggest that you contact our office and speak to one of the water right agents that could better serve you on this issue. You will need the water right permit number when you contact them, and inform them that I had your file.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Amanda Folsom'.

Amanda Folsom  
Field Agent
