RE: Water Right Permit No. 37-7807
David L. Squier & Sue S. Squier
56 Laurel Rd., New Canaan, CT 06840

Dear Mr. Skinner:

I have been retained by Mr. and Mrs. Squier to check on the status of Water Right Permit No. 37-7807, for irrigation water on Lot 2, Amended Potters Subdivision, Blaine County, Idaho (13312 State Hwy. 75). From the limited file material I was provided, it appears that a field exam was scheduled, but subsequently aborted, by Field Agent Amanda Folsom in 2001, shortly after the Squiers purchased the property from Robert G. Reid and Jean A. Reid on June 1, 1999. In her letter to Mr. Squier dated July 30, 2001, Ms. Folsom indicated that the field exam was being cancelled because the systems and equipment enabling delivery and beneficial use of the water were not complete at that time, and she indicated that "another field exam agent from this office will contact you at a later date to complete this exam." All systems on the property are now complete and functioning, and my clients are getting anxious to complete the licensing process. I would appreciate receiving an update from you on the current status of this matter, including any additional documentation you may need from my clients, and, hopefully, a schedule for completing the field examination.

Thank you for your assistance.

Sincerely,

J. EVAN ROBERTSON
