Boise, Idaho 83720-0098

Dear Mr. Keen:

Re: Permit No, 22-13709

I writing to advise you that Idaho Holdings, LLC, has installed a lockable headgate and a staff gauge on its irrigation diversion from the adjoining property and upstream water user (see attached photographs). This is in response to conditional approval #8 of Water Permit #22-13709. We previously requested relief from this requirement in a letter sent to you on May 23, 2009, but we were subsequently advised that we should comply with the requirement. This has been done.

If you or the local watermaster has any further questions or comments on this matter, please do not hesitate to contact us, and we will be glad to respond.

Yours truly,

Nancy J. Liebrecht, MLA
Environmental Planner

Copy to: Tony Olenichak

Headgate drilled so that a lock may be placed when gate is closed.

Staff gauge purchased at IDWR in Idaho Falls installed in Fall of 2009.
