Subject: Application for Transfer  
Amended Application for Permit No. 61-7764  
Applications for Permit (2)

Dear Steve,

Enclosed and described below are an *Application for Transfer, Amendment of Application for Permit No. 61-7764* and *two additional Applications for Permit* for irrigation of a place of use also known as the Stephens Farm.

*Application for Transfer* proposes an integrated irrigation system for the Cold Springs Creek partial decrees appurtenant to the farm. Approval of the transfer will allow irrigation of 200.5 total decreed acres anywhere within a 500 acre permissible place of use (ppu). The fee for this application is \$410.

*Application for Permit No. 61-7764* is being amended to increase proposed irrigation from 195 acres to 199 acres. We feel that 199 acres were originally intended because 3.98 cubic feet per second (cfs) was the proposed irrigation diversion rate, which equates to 199 acres based on one inch (0.02 cfs) per acre. The place of use was also amended to describe 199 acres irrigation within a 500 acre ppu. The fee for this application has been paid.

An additional *Cold Springs Creek Application for Permit* is being proposed for irrigation of the remaining 100.5 acres within the 500 acre ppu not covered on the above applications. The fee for this application is \$330.

Also included is a *Ground Water Application for Permit* proposing supplemental irrigation within the 500-acre ppu. For drilling flexibility, six well sites were described as possible locations. The fee for this application is \$330.

November 24, 2008

---

Check No. 9978 for \$1,070 is included for the required filing fees. Please let me know if you have any questions. Thanks Steve.

Sincerely,

Lori Graves  
Water Rights Specialist
