Subject: Amended Transfer Application No. 75265

Dear Angie,

Enclosed on behalf of Arc Properties, LLC is an amended page 1 of Application for Transfer No. 75265 with the corrections you requested to Part 1, item B.1. Also enclosed is a modified topographical map showing two points of diversion for Cold Springs Creek and correct township and range labels.

You also asked how water from lower spring and unnamed stream diversions will reach upper lands. The applicants confirmed that water from these sources will flow into a small impoundment located next to Henley Springs. From there, water will be pumped into an integrated pressurized irrigation system, enabling water from these sources to reach upper lands within the proposed permissible place of use.

Thank you for your attention to this matter and please let me know if you need any additional information. Thanks Angie.

Sincerely,

Lori Graves
Water Rights Specialist
