

MEMO TO FILE 65-7231

FROM: Sandy Egbert

DATED: 11-13-2009

Water right 65-7231 has been split in error from a Change of Ownership received 9-18-09. The split water rights (65-23356 and 65-23357) were never completed and have SEE REMARKS in the Status. I have changed the parent right (65-7231) back to ACTIVE status.

Dennis Gribble was in my office on 11-13-09 and he is going to file a transfer to correct the legal description, split this water right and move some water to a parcel that may not have been covered by the original license
