

MEMORANDUM

DATE: February 23, 2009
TO: Sharla Cox
FROM: Morgan Case
RE: Application for Permit No. 75-14461

I would like to correct an error in a memo that I sent on October 29, 2008.

The Idaho Water Resource Board does not hold a minimum stream flow in a reach immediately downstream of the applicant's proposed point of diversion. Please disregard my comments regarding administration of a minimum stream flow.
