

MEMORANDUM

Date: November 19, 2009
To: Application for Permit 72-16811 - Bryson File
From: Jeanie Robertson
Re: Evaluation of Sufficiency of Information Submitted

This application is for 0.02 cfs to be pumped from the Salmon River for irrigation of 0.9 acres. According to Shelley's memo dated June 10, 2009, since this diversion is downstream from the East Fork of the Salmon and pumping less than 2.01 cfs, we don't need comments from the Fish & Game and DEQ. It will, however, count against the block of water so I have entered it on the spreadsheet. For the Conditions, I followed the flow chart for **Measuring Device, Lockable Controlling Works, and Water District Conditions** on Wenet. Location of the place of use is a lot along the Salmon River on the south side of HWY 75 approximately 14 miles west of Clayton, about ½ mile west of Torrey's.
