RE: App For Transfer 76058

Dear John;

A discussion of your application with our Boise office has yielded an idea that I had not thought of when we were putting the application together. They felt that it would be cleaner to transfer just the Snake River right, and for you to relinquish the Riley Creek right once the transfer is approved. You would be able to irrigate the same amount of land with the same diversion rate either way, so giving up the Riley Creek right would just simplify the paperwork without diminishing your ability to irrigate your property. If this idea is acceptable, please sign the enclosed relinquishment form for yourself and as a representative of Margaret's estate, and return it to me for processing. I will keep the form in the transfer file until the transfer is approved, so you will retain ownership of that right until then.

Please respond by November 27 so that processing of your application can continue in a timely manner.

Regards,

James E. Stanton
Sr. Water Resource Agent
