Re: Applications for Transfer – W-4 Dairy Limited Partnership 36-7275

Dear Mr. Merritt,

Attached is the Application for Transfer of Water Right 36-7275. Currently 36-7275 has 82.7 acres in the Idaho Water Supply Bank. A portion of 36-7275 has been rented out by Mountain View Land Limited Partnership. Mountain View Land Limited Partnership has relinquished a 65 acre portion of its water right to W-4 Dairy Limited Partnership and therefore a 1.3/260 cfs/afa portion of 36-7275 will change ownership to W-4 Dairy Limited Partnership.

It is proposed to transfer 65 acres or 1.3/260 cfs/afa of irrigation water of 36-7275 from a point of diversion of SWNESE Sec. 22 T 08S R 25E to a new point of diversion of NWNESE Sec. 27 T 07S R 25E. It is proposed to include 36-7275 with 36-16375 in the 320 acre PPU with an acre limit of 264 acres.

In 2007 31.3 acres of 36-7275 was removed from the water supply bank due to a water call, but was never used. Therefore, it is desirous to transfer the 31.3 acres that has not been used since 2007 and an additional 33.7 acres from the water supply bank for a total of 65 acres. The split will result with 49 of 36-7275 acres remaining in the Water Supply Bank.

The ESPA ground water model was ran with 260 afa (86.7 afa/trimester) being moved from Row 77 Column 71 to Row 81 Column 69. From this analysis it has been determined that no mitigation is required with this transfer.
