RE: Change of Ownership 27-11959

On September 21, 2009 our department received an Assignment of Permit from Brian and Trina Esplin into Brian, Trina Esplin and Northwest Farm Credit. On the same date we received a Notice of Security Interest for Northwest Farm Credit.

I called Joyce Killpack from Northwest Farm Credit Services to find out whether their intention is to actually put Northwest Farm Credit as a current owner or only as a security interest or both. The water right is presently in only Brian Esplin's name. She said she would need to call me back after talking to the legal department.

Talked with Joyce Killpack, she indicated they want to be listed as a current owner and as a security interest holder.
