RE: Application for Permit #63-12421

Dear Mr. Baicy:

This letter is regarding the above described application that was filed with our agency October 24, 1997 and recently re-instated. The response form received from you on May 29, 2009 indicated you intended to proceed with the water use development and requested the application be processed.

Our initial review of the application finds that water right #63-07431 recently decreed in the Snake River Basin Adjudication already covers the majority of the place of use (132 acres) listed on your application. Our office can not process a new application that duplicates another water right. We can however process the additional 28 acres listed on the application if you intend to pursue the development.

Attached is a shape file map that shows the place of use for decreed #63-07431 outlined in blue. The irregular shaped non irrigated parcels (gray) are not covered under the decreed right. If you desire to develop these parcels (28 acres total) your application can be amended to reflect the new acreage. Under #8 on the amended application, please cross out the old acreage listed and place the new acreage to be developed in each 40 acre tract. Also, the irrigation flow rate under #4 must be adjusted to reflect the reduced acres. The rate is: $.02 \text{ cfs} \times (\text{the number of acres}) = \text{the new flow rate}$. Cross out the old rate and write in the new. Sign, date, and return to this office.

If you do not intend to develop the non irrigated acreage, the application should be withdrawn, a withdrawal form is enclosed.

Please return your withdrawal or amended application within 30 days. An untimely response or no response may result in the application being ordered void.

Should you have questions please contact me at the Western Regional Office, phone 334-2190.

Sincerely,

John Westra, Manager

Enclosure: amended application form, original appl., withdrawal, shape map.

APPLICATION FOR PERMIT

To appropriate the public water of the State of Idaho

1. Name: JOHN W BAICY
2715 SHADY LN
WEBSTER TX 77598
(832)247-9588

2. Source: GROUND WATER

3. Location of Point of Diversion:

#1 GROUND WATER NW1/4NE1/4 Sec. 19,
ADA County

4. Water will be used for the following purposes:

Purpose	From To	RATE OF DIVERSION
DOMESTIC	01/01 to 12/31	0.10 CFS
IRRIGATION	03/01 to 11/15	2.70 CFS
STOCKWATER	01/01 to 12/31	0.20 CFS

5. Total quantity to be appropriated is: 3.00 CFS

6. Proposed diverting works:

POINT OF DIVERSION #1

a. Type and size of devices used to divert water from the source: EXISTING PUMP, MAINLINE TO SPRINKLERS

b. Height of storage dam _____ feet;
Active reservoir capacity _____ acre-feet;
Total reservoir capacity _____ acre-feet;

c. Proposed well diameter is _____ inches;
Proposed depth of well is _____ feet.

d. Is ground water with a temperature of greater than 85F being sought?

e. If well is already drilled, when? _____;
Drilling Firm _____;
Drilling Permit No. _____.

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 2 year(s).

8.

← Adjust Flow rate
0.2 CFS X acres
= Flow rate
