Department of Water Resources

Reference: #63-12421

Dear John Westra,

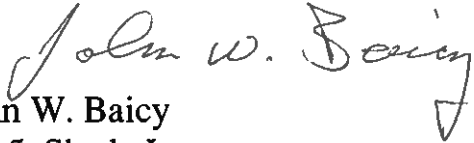

RECEIVED

AUG 31 2009

WATER RESOURCES
WESTERN REGION

In reference to the enclosed application, we would like to state that we plan to increase our irrigated land to 150 acres. We have removed much of the rock out cropping. Please process our application to increase our water withdrawal to 3.0 cfs.

Thank you for your assistance in this matter.

RE: Application for Permit #63-12421

Dear Mr. Baicy:

This letter is regarding the above described application that was filed with our agency October 24, 1997 and recently re-instated. The response form received from you on May 29, 2009 indicated you intended to proceed with the water use development and requested the application be processed.

Our initial review of the application finds that water right #63-07431 recently decreed in the Snake River Basin Adjudication already covers the majority of the place of use (132 acres) listed on your application. Our office can not process a new application that duplicates another water right. We can however process the additional 28 acres listed on the application if you intend to pursue the development.

Attached is a shape file map that shows the place of use for decreed #63-07431 outlined in blue. The irregular shaped non irrigated parcels (gray) are not covered under the decreed right. If you desire to develop these parcels (28 acres total) your application can be amended to reflect the new acreage. Under #8 on the amended application, please cross out the old acreage listed and place the new acreage to be developed in each 40 acre tract. Also, the irrigation flow rate under #4 must be adjusted to reflect the reduced acres. The rate is: .02 cfs X (the number of acres) = the new flow rate. Cross out the old rate and write in the new. Sign, date, and return to this office.

If you do not intend to develop the non irrigated acreage, the application should be withdrawn, a withdrawal form is enclosed.

Please return your withdrawal or amended application within 30 days. An untimely response or no response may result in the application being ordered void.

Should you have questions please contact me at the Western Regional Office, phone 334-2190.

Sincerely,

John Westra, Manager

Enclosure: amended application form, original appl., withdrawal, shape map.

SRBA PARTIAL DECREE 63-07431
