PROOF DUE NOTICE

RE: PERMIT NOS. 37-20653 & 37-20654

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

Dear Permit Holder:

One condition of approval of each of the above referenced water permits was that proof of the extent of your beneficial use must be submitted to this office on or before January 01, 2010. (See last page of your approved permit or your last approved extension request.) Enclosed are forms which, when accompanied by the license examination fees or a completed field examination reports prepared by a certified water right examiner, may be used to submit the required proof, if the water rights have been applied to its beneficial use.

If you have not fully completed your project, and you or a previous owner of these permits have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been delayed by a federal agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a \$50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this department on or before the above proof due date. If neither is received, the department will send you lapse notices and the permits will no longer be of any force nor effect.

Sincerely,

Emalee Rushing
